tire valley:

Mr. Chairman-Your committee

on resolutions having carefully

considered the various resolutions

and subjects referred to them, re-

spectfully submit the following re-

Whereas, in order to secure the

producers in all parts of the coun-

try the highest possible return for

their product, and the most favor-

able exchange of the same and

our proper relations to the condi-

tions of foreign markets, it is es-

sential that the cost of transports-

tion be reduced to the minimum;

Resolved, That the immediate

and comprehensive improvement

of the Mississippi and Missouri

rivers and their navigable tributa-

ries to the fullest extent of their

improvable capacity, in order to

secure safe, permanent and relia-

ble channels of sufficient depth

and breadth to afford at all sea-

sous of the year ample facilities

for the water transportation of the

immeuse production of the Missis-

sippi Valley, is demanded of the

government of the United States

by every consideration of commer-

cial, agricultural and social ad

vancement, and by justice and an

enlightened policy of promoting

the prosperity and defense of the

·Resolved, That we favor any

meritorious project for increased

in this regard to the careful con

river, from the falls of St. Autho-

Resolved, That sufficient appro-

priation ought to be made to give

at least six feet of water in the

Falls of St. Anthony at the earliest

practicable day, and that we urge

upon Congress that an immediate

amount necessary to compete the

sald work; and we also favor con-

tinning liberal appropriations by

Congress for the improvement of

the Mississippi from Cairo to the

sources thereof, in accordance

with the recommendation of the

government engineers, and we

commend to Congress the careful

consideration of the report of the

rosident engineers to the War

Department on the reservoir sys

Whereas, the Missouri river is

cultural and mineral country un-

surpassed in wealth, its borders

populated by over 6,000,000 peo-

ple, yet never having received a

direct appropriation from the na

tional government for its general

improvement prior to the Forty-

seventh Congress; therefore, be

Resolved, That we earnestly

commend and arge the present

and permanent improvement of

the navigation of the Missouri riv-

er upon a general and systematic

plan, to prepare it for commerce

by steamers and barges; and we

urge a policy of large and contin-

ued appropriations by Congress.

Therefore, we further recommend

that the improvement be carried

divisions of the river, with equal

this work commensurate with the

nd the fitness of the river for a

tem of the Upper Mississippt.
